

Tiles

If the tile you want isn't at Academy Tiles' 800-square-metre showroom, then you are too fussy. In business for 30 years, its range includes more than 4000 products, from stones to ceramics and porcelains, in multiple sizes and shapes and in satin and gloss finishes. Also, there are mosaics and classics, such as penny rounds and hexagonal glazed ceramics in fab colours.

Bottom line Penthouse metallic porcelain tiles (pictured), \$125 a square metre.
